

ASSOCIATE OF SCIENCE IN ARCHITECTURE (AS)

This degree prepares students for entry-level employment and/or potential further study in the field of Architecture through the study of design, visual communication, architecture history, and construction technology. Students will acquire skills, knowledge, and abilities related to predesign, conceptual design, schematic design, design development, tactile (by hand) model-making, digital (computer) model-making, building information modeling (BIM), tactile (by hand) graphics/drawing, digital (computer) graphics/drawing, architecture history, computer assisted drafting & design (CAD), construction materials & methods, construction documents, and detailing.

Program Outcomes

- Create and appraise architectural design.
- Create and distinguish 2D and 3D visual communication drawings (tactile and digital).
- Analyze and differentiate architecture history.
- Create and analyze documents related to construction technology.

Career Opportunities

Upon successful completion of this degree, students will be prepared for careers or employment in the following fields: architecture, environmental design, interior design, planning, landscape architecture, product design, and civil engineering.

Note

This degree is not designed for transfer; however, the courses included in this degree may be transferable and apply to other degrees designed for transfer.
