

# SKILL CERTIFICATE IN CONSTRUCTION INSPECTION

---

This certificate prepares students for entry-level employment in the field of Construction Inspection. Students completing this certificate will acquire basic knowledge in building codes and code authority, enforcement, and basic concepts of building systems.

## Program Outcomes

- Identify the construction documents required for obtaining a building permit.
- List the content of each chapter (1-10) in the International Residential Code.
- List the sequence of inspections involved in a residential construction project.

## Career Opportunities

Upon successful completion of this certificate, students will be prepared for employment with city or county building inspection departments, permit technician, code enforcement, or home inspection.

## Program Requirements
