

# ASSOCIATE OF SCIENCE IN INDUSTRIAL AUTOMATION (AS)

This degree prepares students for advanced-level employment in the fields of industrial automation and industrial maintenance. Students are required to complete the industrial maintenance program or have equivalent experience before advancing to the industrial automation program. Students completing this program will acquire employment skills in the areas of instrumentation, process control, electrical wiring and troubleshooting, motor controls, variable frequency drives, programmable logic controllers, human-machine interfaces, industrial networks, and industrial robots.

## Program Outcomes

- Safely demonstrate technical skills required for employment in automation and manufacturing industries.
- Develop and apply problem-solving skills to design and maintain automated systems.
- Function effectively in a technical capacity as an individual and as a team member, demonstrating a commitment to professionalism, quality, timeliness, and safety.

## Career Opportunities

Upon successful completion of this degree, students will be prepared for employment in the following occupations: Industrial maintenance technician, industrial automation technician, instrumentation technician, electronics technician, field service technician, technical sales representative.
