

ASSOCIATE OF SCIENCE IN LANDSCAPE MANAGEMENT (AS)

This degree prepares students for entry-level employment in the field of Landscape Management through the study of landscape maintenance, turfgrass management, landscape irrigation, and integrated pest management. Students will acquire skills in pruning, planting and fertilizing trees and shrubs, monitoring for pests and diseases, application of pesticides, sprinkler installation and repair, and maintaining turfgrass.

Program Outcomes

- Demonstrate appropriate installation and cultural management practices for an aesthetically pleasing landscape.
- Communicate with the public and colleagues utilizing a variety of communication methods.

Career Opportunities

Upon successful completion of this degree, students will be prepared for careers or employment in the following areas: landscape installation and maintenance, equipment and supplies sales, turf management, pesticide applicator, landscape water auditor, and parks maintenance personnel.

Note

This degree is not designed for transfer; however, the courses included in this degree may be transferable and apply to other degrees designed for transfer.
